

INSTACART

MARKET BASKET ANALYSIS

How your products are related to each other?

INSTACART

How can we use data to sell more?

Selling smartly

First, we need to understand
the data.

DEPARTMENTS & TIME

We need to
understand that the
clients have **different
characteristics.**

Having that, we decided to group them.

INSTACART

The different characteristics of each cluster

Count of orders by time of the day and cluster

clusters 0 1 2 3

Count of orders by count of products and clusters

clusters 0 1 2 3

CLUSTER 0: 55% ARE MONTHLY ORDERS

CLUSTER 3: 70% ARE PLACED IN LESS THAN 11 DAYS

CLUSTER 1-2: 80% ARE PLACED IN LESS THAN 10 DAYS

Products per order

Which products are bought together? Which ones are never bought together?

In order to suggest better what products are going to be sold, we can understand which ones most likely to be sold together, so if a product X is on the cart, we can offer product Y.

Complementary Goods

Yogurt and
Fresh Fruits

Hot Dog Sausage and
Packaged Cheese

Fresh Herbs and
Fresh Vegetables

Tapenade and
Pretzels

Fresh Fruits and
Fresh Vegetables

Lunch Meat and
Bread

Substitute Goods
